

PPE

An interactive training course on Personal Protective Equipment

This interactive learning course is to make staff aware that personal protective equipment is a “last resort” as a protection against risks to safety and health in the workplace.

The course details how to choose PPE that’s suitable for the task, the wearer, and the work environment and is worn correctly by someone who has been trained to use it. The training message is delivered in a positive mode to ensure all trainees are aware of the safety procedures and know where to get information should they be required to. The “Dress for Danger” and “no one works to get hurt” culture is reinforced throughout the course.

The learning design adopted ensures effective engagement of the Learner by continued interaction utilizing screen prompts to guide the trainee through the course and those with little or no computer experience will find it easy to use.

- A cost effective solution to your training and ongoing assessment requirements
- Recorded evidence of training covering safe working practice and legal compliance
- Progress and achievement that is measurable
- Consistent, reinforced auditable training

Having completed the tutorial, a random assessment test is generated and the course records the Learner’s progress providing an auditable trail of results and a certificate

of completion can be printed for successful students. This certificate provides evidence of the underpinning knowledge required prior to completing a workplace assessment to prove competence. This accreditation of prior learning can contribute towards NVQs.

My SafetyNet courses...

- Have the course customized to reflect your company’s corporate identity, site requirements and company SHE policy.
- Delivery of training can be configured to suit individual company IT requirements

Make your Site a Safety Zone - Keep it Safe and Legal

...training for success

Course Module

Introduction to PPE.
Choosing PPE.
Storage of PPE.
Maintenance of PPE.
Responsibilities of PPE.
Signs requiring the use of PPE.
Checkpoint Quiz

Other courses in the SafetyNet series:

Working Safely, COSHH, Hazard Identification & Risk Assessment, PPE, RPE, Loading & Unloading, Safety in the Office, DSE, Manual Handling, Handling & Use of Flammable Liquids, Noise & Vibration, Driving Safely, Fire.
