

Course Modules

Fire Fundamentals

The Dangers of Fire
The Chemistry of Fire
Classes of Fire
Types of Extinguishers

Fire Prevention

Good Housekeeping
General Fire Prevention
Practical Fire Safety

Fire Emergency

Discovering a Fire
On Hearing the Alarm
Trapped by Smoke
Using Fire Equipment

Three "Missions"

Identify the type of fire & which extinguisher to use
Identify possible fire safety hazards
Take appropriate action when discovering a fire

In the Line of Fire

Interactive training course

This interactive learning course, offered in association with AT&F Solutions Ltd, promotes a pro-active approach towards fire safety and can be used to help foster and develop this attitude change amongst all staff.

The learning design adopted ensures effective engagement of the Learner by continued interaction utilizing screen prompts to guide the trainee through the course and those with little or no computer experience will find it easy to use.

The course highlights the dangers that fire can cause and delivers a positive fire prevention message to staff to remind them of their responsibilities for ensuring the safety of everyone in the workplace. The "If in Doubt, Get Out" message is reinforced throughout the course.

- A cost effective solution to your training and ongoing assessment requirements
- Recorded evidence of training covering safe working practice and legal compliance
- Progress and achievement that is measurable
- Consistent, reinforced auditable training

Having completed the tutorial, a random assessment test is generated and the course records the Learner's progress providing an auditable trail of results and a certificate of completion can be printed for successful students. This certificate provides evidence of the underpinning knowledge required prior to completing a workplace assessment to prove competence. This accreditation of prior-learning can contribute towards NVQs.

My SafetyNet courses...

- Have the course customized to reflect your company's corporate identity, site requirements and company SHE policy.
- Delivery of training can be configured to suit individual company IT requirements

Make your Site a Safety Zone - Keep it Safe and Legal
